From design concept, to creation and assembly, to the final hand-painting, your order is hand-made just for you at Orion, here in the USA.

From our humble beginnings as an iron workshop manufacturing gates and fences in 1983, Orion Ornamental Iron, Inc. has grown into an established and well-known national brand in the drapery hardware industry. Our diverse collections, many of them award-winning, cover a wide range of décor styles and drapery hardware functions to meet the needs of today's designers.

We are best known for our Iron Art[™] collection. It includes a varied array of over 150 finials, traditional rods with rings or traversing systems with manual or motorized draw options, coordinating rings and brackets in a wide variety of choices, and plenty of accessories, all available in 35 beautiful Iron Art[™] finishes. And since customization is our specialty, whether it's creating a finish, fabricating custom parts, or making a custom design, Orion can offer you a complete drapery hardware solution.

3D Drapery Hardware Finials in Front of Rod

Explore new window designs with the ability to have the finial in front of the rod. Finials can also be manually adjusted to be above or below the rod simply by changing their position to enhance the window covering presentation.

Combined with our master carriers, which help reduce light gaps, this system is also great for tight areas where you may not be able to fit the finial you would like to use when using conventional drapery hardware.

Nearly all our finials are available for use with the 3D system (some exceptions are listed on page 27). Rods are 1["] diameter in either round hollow smooth (Iron and Italian) or hammered styles (Iron only). Choose from 35 Iron Art[™] finishes, 5 Italian finishes, or your own custom finish.

3D Drapery Hardware Finials in Front of Rod

3D Drapery Hardware can be used with single or double rod systems. Back rods in the double rod system are the same length as the front rod, including their end caps. Straight master carriers allow the drapery to pass the end brackets, giving you maximum window coverage. Begin your order by selecting your 3D Drapery Hardware Kit from the selections below.

3D Drapery Hardware Kits:

3D Single Kit:

3D-SIA

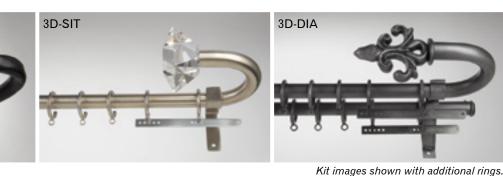

- Two 180° U-Bends for one iron rod.
- Two straight master carriers for rings.
- Four rings (two for each straight carrier).

3D Double Kit:

- Two 180° U-Bends for one iron rod.
- · Four straight master carriers for rings.
- Eight rings (two for each straight carrier).
- Two end caps for one back rod.

Finials:

Because of their size and branch shape, we don't recommend the 3D system for use with Iron Art[™] finials 410, 416, 506, 711, 939, 954, 979, and 982, and Village Forge finials 600, 601, 603, and 606. All other Iron Art[™] finials, Italian finials, and Bohemia Crystal finials may be utilized.

3D Drapery Hardware

Position the U-Bends from horizontal to vertical, and anything in between, with the use of our brackets with lids and set screws.

Brackets:

Choose from any of our Iron Art[™] brackets. We will add lids and set screws to keep your rods secure, allowing you to position the 3D rod at various angles.

Rings:

Choose from any of our Iron Art™ rings. 3D Kits and Overlap Master Carrier Sets will come with two matching rings for each carrier.

Bypass System:

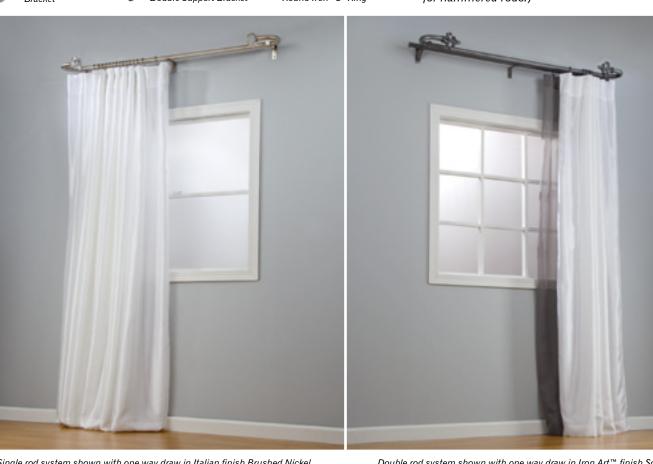

3D Drapery Hardware using smooth rods can be utilized with our Unique Collection support brackets and "C" Rings for one way draw.

Unique Collection support brackets and "C" Rings. (For smooth rods only. Not available for hammered rods.)

Single rod system shown with one way draw in Italian finish Brushed Nickel.

Double rod system shown with one way draw in Iron Art™ finish Soft Pewter.

What's Included:

- One straight master carrier for rings.
- One overlap master carrier for rings.
- Four rings (two for each carrier).

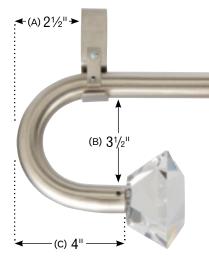

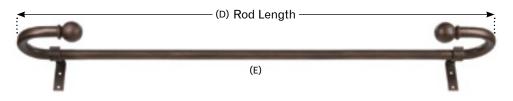

Single hammered rod system shown as center open in Iron Art™ finish black.

Measurement Guidelines:

- A) The distance from the end of the straight rod to the edge of the curve is $2\frac{1}{2}$ ".
- B) The U-Bend projection is 31/2".
- c) The front face of the U-Bend is 4" long, not including the finial.
- D) Order your rod length tip to tip.
- E) Available in 1" diameter round hollow smooth or hammered styles, single or double rod systems. Back rods in the double rod system are the same length as the front rod, including their end caps.

3D Drapery Panels Finials and Stationary Panels in Front of Rod

Introducing our latest product addition, 3D Drapery Panels. Similar to our 3D Drapery Hardware, 3D Drapery Panels allow you to have the finial in front of the rod, perfect for tight spaces. But now the wrap around front portion of the rod can be used for stationary panels. Just give us the length up to 24" on each side.

Specially designed brackets provide support for the front panel rods. Bypass rings for the functional drapery behind the panels allow the curtain to pass under the support brackets.

Available for 1" smooth round hollow rods in 35 Iron Art™ finishes, 5 Italian finishes, or your own custom finish.

3D Drapery Lanels

3D Drapery Panel Kits Include:

- Two 180° U-Bends for One Iron Rod
- Two Front Panel Rod Extensions Up To 24" Long
- Two 3D319DC Support Brackets
- Two Straight Master Carriers for Rings
- Four Bypass "C" Rings (Two for Each Straight Carrier)

CORNICE OPTIONS

Manual and Motorized Traversing

Orion's traversing systems come with many great features, plus plenty of options to choose from.

When using traversing, draperies will open and close easier than traditional rod and ring combinations through the use of heavy-duty glides, tracks and pulleys. With these heavy-duty systems you can safely hang up to 62 pounds of drapes on a 16 foot track; great in these days of lining and interlining. Single or double track systems up

to 30 feet in length allow for a wide range of drapery styles. Front tracks are available with or without rings.

Our cord or baton drawn traversing collections include Designers' Choice (Iron, Wood, and Italian fascia styles), Tuscany Traversing (lightweight embossed metal rods), and Deco Lite Traversing (lightweight embossed metal panels). All these collections can be motorized with Somfy.

Orion offers nearly 200 different finials and 52 beautiful finishes to compliment your traversing system. You can even do your own custom finish. With so many options to choose from, you're sure to create that perfect design!

Our Wood Art[™] collection was introduced to expand the hardware options we offered designers, adding the classic elegance of wood to our drapery hardware selection. Wood Art[™] is a beautiful, versatile group that will enhance any designer's imaginative repertoire.

Crystal, wood, and resin finials designed to fit 1³/₈", 2", 2¹/₄", or 3" poles are offered in a range of styles that will blend with or complement any décor. All are available in 35 Iron Art[™] and 11 Wood Art[™] finishes, as well as your own custom finish.

Wood Art[™] features wood poles in smooth, rope or fluted designs. There are two wood bracket styles and two wood ring styles to choose from. All our wood poles are also available with manual or motorized traversing.

Interested in an iron-wood fusion solution? Mix iron and wood together for a truly original look. Iron finials, rings, and brackets can all be incorporated for a one of a kind design.
